

7 easy steps for blind and cord safety

1. **M**ake sure your children cannot reach any blind or curtain cords.
2. **M**ake sure the bottom of any blind or curtain cord is at least 160cm above the floor.
3. **M**ove children's cots, beds, high chairs or playpens away from windows with blinds or curtain cords.
4. **M**ake sure your child cannot climb on furniture and reach blind or curtain cords.
5. **W**rap blind cords securely around a hook attached high on the wall.
6. Install a cord tensioning device for all blinds with looped cords.
7. **W**hen installing new blinds, seek advice from the supplier about products that use 'wands' instead of cords to operate the blinds.
